Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.—Adv.

GIRLS! HAVE WAVY, THICK, GLOSSY HAIR FREE FROM DANDRUFF

Save Your Hair! Double Its Beauty in a Few Moments—Try This!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—Adv.

NORWICH UNIVERSITY

On Nov. 9, the Vermont Cavalry Reunion society is to hold its forty-fourth annual meeting at Norwich university. Last spring the association presented the university with a fine steel flag-staff with granite base, together with a large garrison flag, and presentation tablet. At 2 o'clock in the afternoon this flag, flag-staff, and tablet will be formally presented and dedicated with appropriate ceremonies. This will be followed by dress parade by the corps of cadets. Immediately after the parade the business meeting will be held in Dewey hall. A banquet and camp-fire will be held at the Congregational church at 6:30 in the evening. As the hotel has recently burned the visiting members will be boarded at private houses.

Robert Ford, of the class of 1892, was at the university Wednesday and gave a talk to the corps of cadets. This talk was along the line of a proper appreciation of the worth of theory in college study; that practice could be had after graduation. Mr. Ford claims that the young man having a large store of theory and but little practice will eventually make more of himself than one who has had much practice but too little theory. This is not an argument against the proper mixing of the two. Later in the morning he gave a talk to the junior and senior civil engineers on "Federal Valuation Methods." Mr. Ford
